

## ULV-445-700

### Blue Laser Diode Module

ULV-445-700 is a 445nm blue diode laser module with TTL modulation capability featuring high power, compact size, and low price.

Specifications	
Wavelength	445 ±5 nm
Output Power	> 700 mW
<b>Input Voltage</b>	<b>12 VDC</b>
Operating Mode	CW
Cooling	Integrated Heatsink
Transverse Mode	Near TEM <sub>00</sub>
Beam Divergence (full angle)	< 2.0 mrad
Beam Diameter (at the aperture)	~ 2x4 mm
Power Stability (rms/4hrs)	< 3%
<b>Modulation capability</b>	<b>TTL, 20 kHz</b>
Expected Lifetime	5000 hours
Laser Dimensions	65 x 33 x 33 mm
Driver Dimensions	72 x 35 x 28 mm
